President's Message

Greetings!

As we move past a particularly difficult January, I can't help but be thankful for the simple things. I appreciate the words of those who have been in this industry longer than I, who have seen the ebb and flow of oil & gas and understand there are peaks and valleys: This too shall pass.

For those of you who have felt the sting of change hit close to home, I want to encourage you. This is the purpose of COPAS: networking. The thing I love most about working in oil & gas is the people. There are so many of us in this industry, and yet it feels so much like a family. I remember when my husband was up for a move to Buckley AFB in Denver, CO. I was a little apprehensive, but also not too overwhelmed with the upcoming change because I knew some COPAS friends I could contact. When we pulled into the parking lot at our new apartment in Denver, a friendly face was there to welcome us and help us unload. That friend was someone I met through COPAS.

In addition, I hope our speaker this month can offer some encouragement. Chris Schinnerer, Supervisor of Evaluation & Planning at Devon, is in charge of the team who presents a regular look at the trend in our industry to the executives of the company. Although a forecast is always just that, and nothing is certain, it is his job to review the trends and determine where they think the market is heading in terms of pricing, supply and demand, change. I hope you enjoy this presentation as much as I did.

We look forward to seeing you on the 17th!

Jenni
